

## Post-NON-SCLS

Dear Student,

Thank you for taking part in this workshop. We would like to ask you some questions to help workshop leaders improve the workshop's activities. Remember that **this is not a test**. The only "right" answer is what you think. Your answers will not be used in the research study.

**1. Please describe your experience of the workshop. For example, how did you feel doing the activities? Was there anything unexpected in your experience?**

Type here

**2. What was your favourite activity that you did today? Why was it your favourite?**

Type here

**3. What was your least favourite activity that you did today? Why?**

Type here

**4. If you could change one thing about the activities, what would it be?**

Type here

**5. If you could add one thing to the activities, what would it be?**

Type here

**6. Think back on the activities that you did today. Write the ones which you would describe as creative.**

Type here

**7. Think back on the activities that you did today. Write the ones which you would describe as scientific.**

Type here

**8. Please describe in your own words what the word scientific means to you.**

Type here

**9. Please describe in your own words what the word creative means to you.**

Type here

**10. Thinking back on what you did today, was there anything that made you think about science and creativity differently? How did your ideas change? (Relate to your answer that you gave in the morning for the question asking, "Is science creative? Why or why not?")**

Type here

**11. Would you recommend that your friends should come to this workshop? Why or why not?**

Type here

Thank you for your time!
